

How to use your #CyberMOT scorecard

Read down the numbered statements. If you agree with the statement, tick "yes, I understand this" and move to the next. Otherwise, click "Get content" to access our easy to understand learning. Once you've finished the content, tick the one of the three remaining boxes that best reflects your understanding. Once all 16 are done, you'll have a clear indication of where you need to increase your knowledge, or find a solution for your business, and how One2Call can help.

Yes, I'm confident I understand this	I need to learn more	Ah now I understand	I still need to learn more	I need a solution for this.	How One2Call can help
--------------------------------------	----------------------	---------------------	----------------------------	-----------------------------	-----------------------
